Gallery versus Studio

STUDIO

- The studio canvas is made with a 45mm deep redwood pine from sustainable resources.
- The frame is tapered so that it doesn't push on the front of the canvas.

GALLERY

- The gallery canvas is made with 45mm deep MDF, and has a MDF lid. The canvas is stretched around this, the MDF lid adding extra strength to the product. It is also slightly heavier than the studio canvas.

## Floating Canvas

With a deep edge **white or black** frame, the Image is produced on 380gsm archival natural canvas, sealed with fine art recommended varnish, Hand stretched across a solid framed unit finally set into a floating frame.
